**Design Spec**

We are going to completely revamp this website for Headhunter Hairstyling. As of right now, the website is very inefficient in its use of space and color scheme. The goal of the redesign is to give it an elegant and trendy minimalist look. This new look will not only attract a more millennial audience, but the elegance will convey an added degree of professionalism. I believe this new look is the best approach because it appeals to a younger audience due to the trendy, minimalist theme but it also makes the user experience more enjoyable as it is more straightforward than the current site.
